EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald J. Bobak on 08/19/2003.

The application has been amended as follows:

The claims:

Claim 11, line 2, delete "inches", and insert --inch--.

Rewrite claim 16:

A method for the production of a reflective article comprising the steps of:

- a) providing a substrate which contains pores which has a diameter of less than 0.5 microns; and
- b) applying a layer of reflective material directly to the substrate in such a way that said layer at least partially obscures a plurality of the pores of the substrate, wherein said layer of reflective material is selected from a group consisting of metal coatings and dielectric coatings.

Claim 17: line 2, delete "metal", and insert -- reflective material --.

Claim 19: line 2, delete "selected from the group consisting of metals and dielectrics", and insert -- metal coating --.

Claim 20: line 1, delete "metal layer", and insert -- metal coating --.

Art Unit: 1771

Rewrite claim 21:

The method, as set forth in claim 20, wherein said metal coating is aluminum and has a thickness of between 0.001 to about 0.0001 inch.

Drawings

2. The corrected drawings were received on 07/14/2003. These drawings are acceptable.

REJOINDER

3. Claims 1-15 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 16-25, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 16-25 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in Paper No. 3 is hereby withdrawn.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: Note that the art rejections have been overcome by the present amendment and response. The inclusion of the metal coating directly on the microporous substrate which has a plurality of pores with a diameter less than 0.5 micron render the claims patentable over the applied references.

Art Unit: 1771

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
